

**SETON SWIM TEAM'S
SWIMMING DUAL AND MULTIPLE-DUAL MEET SCORING WORKSHEET©**

Timothy and Kathryn Seltman, for the benefit of Seton Swim Team in Manassas, Virginia, created this workbook.

This workbook was created to help swim teams score dual meets, from a single dual meet to that of four teams each going against each other (quad dual meets). It has been set up so that the scorer only has to input the information on the "Input Table" and everything will be automatically transferred to the remaining tables. This includes the date of the meet, the head official, team names, individual names and members in the relays, lane entry, and times. For ease of tracking, the teams are color-coded throughout the Input Table. Boys and Girls are scored consecutively. One line is skipped after each event. We have been able to work a formula so that the place rankings are calculated. The scoring will then be done automatically afterwards UNLESS THERE IS A TIE, which will require a manual override. The goal was to keep the size of the file to less than 1.44mb so that the file could be copied on a floppy disk, which limited the number of complex formulas. The Input Table contains the points to be awarded schedule and can be modified if 4 entries per team is NOT used. When entering the time, you must remember to enter " : " between the minutes and seconds, and place the decimal between the seconds and the hundredths, and IF there are no minutes you must enter the leading zeros " 00: ". The time cells have been formatted for "Time" and modified to accept up to hundredths. The individual score sheets have been protected so that the only cells which accept input are the points. The Input Table has a column prior to the time to identify Exhibition swimmers (those who are not eligible to score.) This is used in the formula for ranking. In the case of a Scratch, Disqualification, No Show or Exhibition, Scr, DQ, NS or EX will be placed in the place column and the scoring will place a 0 for the points. The last two tabs of the workbook are designed to be used for single dual meets with three entries per team. If there are more than two teams competing with three entries per team, the original sheets can be used but the points to be awarded schedule will need to be changed. Likewise, if more than two teams are competing and only two entries per team are allowed, the original sheets can be used but again the points to be awarded schedule can be changed. Lastly, at the top of the Input Table, in Column A, the first four rows show Host (team A), Guest 1 (team B), Guest 2 (team C), and Guest 3 (team D). Column B should have the name associated with the team to be transferred to the rest of the workbook. Please keep this as a template. Whenever you are scoring a meet, bring this workbook up and save it with a distinctive name to identify the meet. For ease, sheets that do not apply to a specific meet can be deleted. It should be remembered that computers are only as good as the input. It remains the responsibility of the scoring staff and officials to review the information for accuracy – times typed correctly, places awarded correctly, etc. Any other questions, please call (703) 361-8136. Thank you for receiving this file and we hope you enjoy using this instead of manually scoring multiple dual meets.

Members of Fredericksburg Academy Swim Team assisted with modifications to this worksheet. Both teams are members of the Delaney Athletic Conference comprised of small private religious high schools in the Northern part of Virginia.
